The gentleman whose acquaintance Mr. Sharp desires to make, is not a gentleman, but a school girl. Neither is she a Catholic, as he seems to think judging from his mention of the priest who cursed the children. If she were a Catholic she would not be ashamed of the fact. But, she is a person who both loves and fears God, and expects a reward if she lives a life of service to Him or failing in that she expects everlasting punishment. Mr. Sharp says he believes in a good God or none. So do I, brother. But a good parent punishes his children when they do wrong. If I did not accept the scripture as truth I would not accept any of it. He refers to the passage of scripture where Jesus said: "Suffer little children to come unto me, and forbid them not, for of such is the kingdom of heaven." We are all children in Christ. "Except ye be converted and become as little children ye cannot enter into the kingdom of heaven." I believe Mr. Sharp to be an intelligent man, but think he is laboring under a delusion. Mr. Sharp said in his first article that he was born without God, lived without God and expected to die without God. Also that God had no old clothes to give away. Such talk is treasonable, not to say blasphemous. God does not give us old clothes, but takes them away. He can take away the old robe of sin and give us a new robe of righteousness, and in the end the white robe of immortality. I would sign my name were I not afraid of being thought a seeker for notoriety, which God knows I am not. But, whenever I have a chance I will stand up for my Lord and Master, and expect to receive my reward in heaven, where one of the persons I hope to meet is the man who signs his name "Zeno Sharp."

INDIGNANT VETERANS.

An Order Made at the Leavenworth Home by Gov. Smith.

LEAVENWORTH, Kan., May 8.—There is great indignation at the soldiers' home over an order that was issued yesterday calling for check roll call at 4:45 o'clock p. m. each day, after which hour no member is allowed to leave the home grounds for the remainder of the day; also an order that no pensioner can leave the home grounds within ten days after the quarterly pension pay day. Gov. Smith, of the home, in this order, says that he has only the welfare of the old men under his charge at heart, but many of them assert that there are other reasons behind the movement.

KANSAS BANK COMMISSIONER.

Neither will divulge the contents for the present and the governor will not say what, if any, action he will take under the report. It is understood that there is to be a conference of the attorneys employed by the state to accomplish the removal of Breidenthal and the induction of Jones, the governor's appointee, and until after that time the report will be kept from the public.

Dragging Wool Market.

Boston, May 8.—The wool market has been dull for the past week and the market has been sagging. Purchasers are only buying from time to time as their needs demand. New clips are slow in coming in. Shearing is in progress, but the strike of the shearers has delayed operations.

A RIOT.

Chicago Police Have Two Collisions with Striking Iron Men.

ONE MAN IS FATALLY SHOT.

Four Policemen Badly Hurt by Stones—The Rioters Threaten Vengeance—Mills and the Company's Dynamite Guarded by Police.

CHICAGO, May 8.—At the plant of the Illinois Steel Co. in South Chicago yesterday morning 1,300 men struck for last year's wages. The men remained about the works all day and the forces of the strikers were increased by the laying off of 3,300 men. Shortly before 6 o'clock about 1,600 men, mostly Poles and Bohemians, forced their way past the watchmen at one of the gates and proceeded to take possession of the company's property. They marched first to where some of the laborers were still at work, and either compelled them to join their ranks or quit work. When the strikers reached the machine shop, where about 400 machinists were employed, they were ordered away by the machinists and began an attack upon the machine shop with stones and such weapons as they could pick up. The machinists for the most part stood their ground and gave the strikers as good as they sent. The fight was growing warm when the police arrived, under the command of Capt. Jenkins, who at once made a charge on the mob with his handful of officers. The strikers at first refused to give ground and the police used their clubs freely. This did not have the desired effect and Capt. Jenkins ordered his men to draw their revolvers and fire over the heads of the strikers. As soon as this was done the mob broke and fled wildly. The fight only lasted a few minutes and there was no more rioting. Two officers and several strikers were injured and twenty-eight strike leaders arrested for rioting.

This morning a mass meeting of 500 strikers was held in Eighty-fourth street. The speeches soon became so violent and the men so demonstrative that the leaders forced an adjournment. The crowd would not disperse, however, and a riot call brought a detail of fifteen police officers, headed by Lieut. Wagner. An order to disperse was met with hoots and threats, two men among the strikers during the officers to shoot. The police finally charged with drawn revolvers and were met with a volley of stones and slag. Lieut. Wagner and three of his men fell and the other officers opened fire, sending about twenty-five shots into the crowd. Then the strikers fled, but four of the leaders were arrested. John Wilkowiak, a striker, was shot through the head and will die; Lieut. Wagner's head was cut by stones; Officer Martin Crotty was clubbed into insensibility; Officer John McCafferty, badly bruised; Officer William Walsh's head badly cut by stones. None of the policemen are believed to be fatally hurt. After the shooting the rioters gathered in groups, threatening vengeance, and more trouble is anticipated. The mills are kept under police protection, and the company's store of dynamite is heavily guarded.

SOUTHERN GOLD MINES.

Expert Becker, of the Geological Survey, Making an Interesting Report.

WASHINGTON, May 8.—The report of George F. Becker, of the geological survey, who has been investigating the gold producing districts of the southern Appalachian region, especially the Carolinas and Georgia, has been completed. In it he says the entire south has produced about \$45,000,000 of gold since 1793, \$43,000,000 of which came from Georgia and the Carolinas. Of these, South Carolina produced about \$4,000,000, Georgia \$16,000,000 and North Carolina \$23,000,000. Carabass county, in the southwestern part of North Carolina, is the richest part of all. In the early part of the century the largest nugget on record in the United States was discovered there. Just a month ago one weighing over eight pounds was found.

Dupont May Be Senator.

DOVER, Del., May 8.—There was great excitement on the floor of the senate to-day while the balloting for a United States senator was in progress. Nine ballots were taken, and nearly all of the republicans deserted Higgins, Mass., Pennewell and Addicks, casting their votes for Henry Dupont, president of the Dupont Powder Co., of Wilmington. On the ninth ballot many deserted Addicks and voted for Dupont, giving the latter fourteen votes.

Tillman Liquor Law Overthrown.

COLUMBIA, S. C., May 8.—United States Judges Simonton and Goff decided to-day that the provision of the state dispensary law preventing importations of liquor for private use was contrary to the interstate commerce act and was null and void. An injunction was issued restraining the seizure of such liquor.

Weir City Smelter Men at Work.

PITTSBURG, Kan., May 8.—The delegation of 100 striking smeltermen appointed at a meeting last evening to visit the works at Weir City made the visit, but accomplished nothing, as the workmen there will not quit for fear the works will be shut down indefinitely.

A. F. A. CONVENTION.

The Seventh Annual National Meeting Opened—Many Delegates Present.

MILWAUKEE, May 8.—The seventh annual meeting of the supreme council of the American Protective Association began to-day in Liberty hall. The delegates number about 400. From what can be learned of the problems which are facing the delegates it is probable that the session will be important. The order is now semi-political, and it has exerted its influence in conventions and at the ballot box. Some of the members favor coalition with any of the existing political parties, which will only advocate the principles of the A. P. A. Still another wing favors publicly and would do away with all secret work.

Probably the most important step to be taken by the association will be the adoption of an international constitution and declaration of principles and the extension of the order to all parts of the world.

At its opening session 350 of the expected 400 or 450 delegates were present. President Trayner was in the chair and the various committees reported were appointed. Then Rev. J. C. McGill, of the Canadian branch of the order, outlined the school war in the dominion.

EXCELSIOR SPRINGS JUBILEE.

The People of the Resort Celebrate Recent Improvements—Many Visitors.

EXCELSIOR SPRINGS, Mo., May 8.—This is again a day at Excelsior Springs, the people celebrating the fact that the city has in the past year made many substantial improvements, both of a private and public nature. By proclamation of Mayor Thompson all of the stores are closed, and by order of the school board the public schools are also closed.

Many members of the Commercial club of Kansas City were here as visitors and the city officers and a number of people were here from St. Joseph, Richmond, Liberty and other places. Two concerts of the May musical festival, which will be continued all the week, have been given. The attendance, while not large, was fair in size, and the music was regarded as creditable and satisfactory.

BOARDING THE GOLD.

The Chicago Post Says a Syndicate Is Buying the Output of the Refineries.

CHICAGO, May 8.—The Post prints a telegram from Washington stating that the Morgan-Rothschild's bond syndicate is buying gold from the private refineries at the rate of about \$3,000,000 per month, which is about two-thirds of the entire output of the country. It is declared that the syndicate is paying a premium of 1/2 to 3/4 per cent. in order to get the gold. Most of it was bought at a premium of 1/2 per cent.
